Register as a CR

Cr Registration Screen

After clicking register as a cr, the User will be redirected to this page. On this page, user who wants to register as a cr has to provide some info about the teacher who will verify the student as CR.

sust.edu domain is a must for email.

After teacher verification, the user will be redirected to the Registration page. On this page, the user has to provide information about him
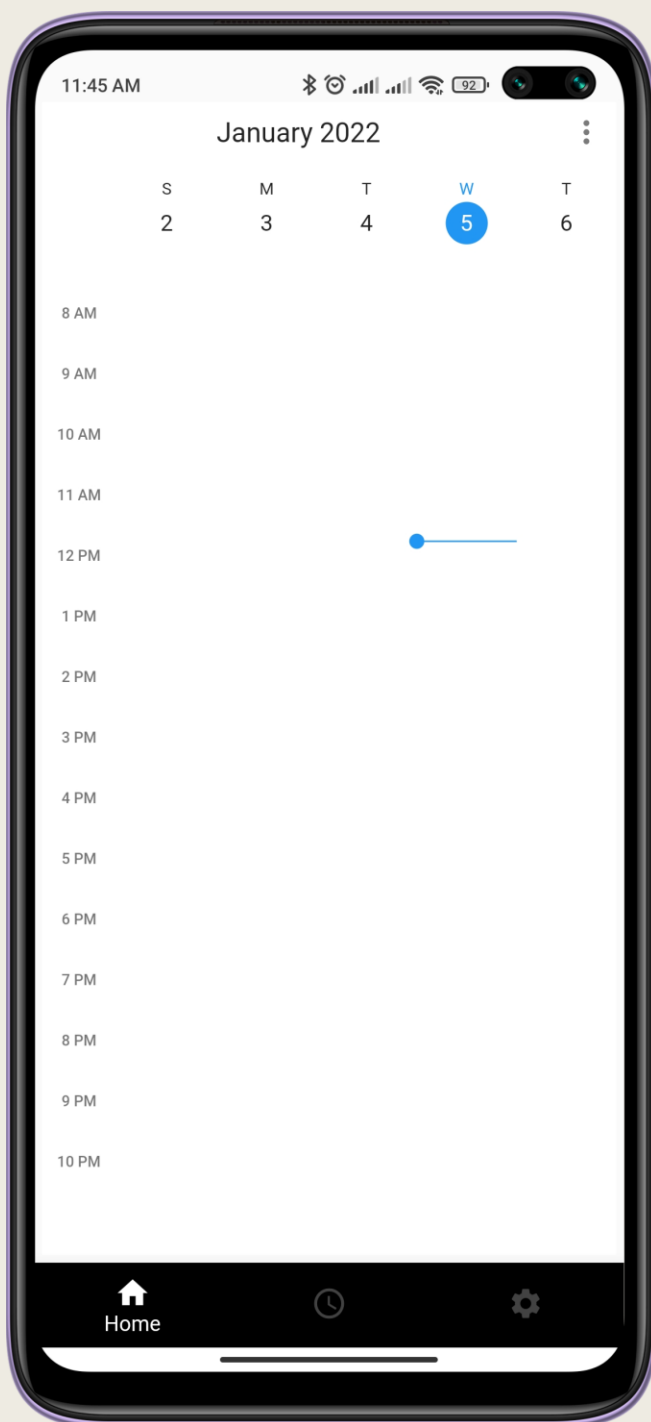

Home Page

After successful registration and login,

The user will be redirected to the app home page where the CR can add any event by clicking any timeslot. Anyone other than CR, can only see the scheduled events.
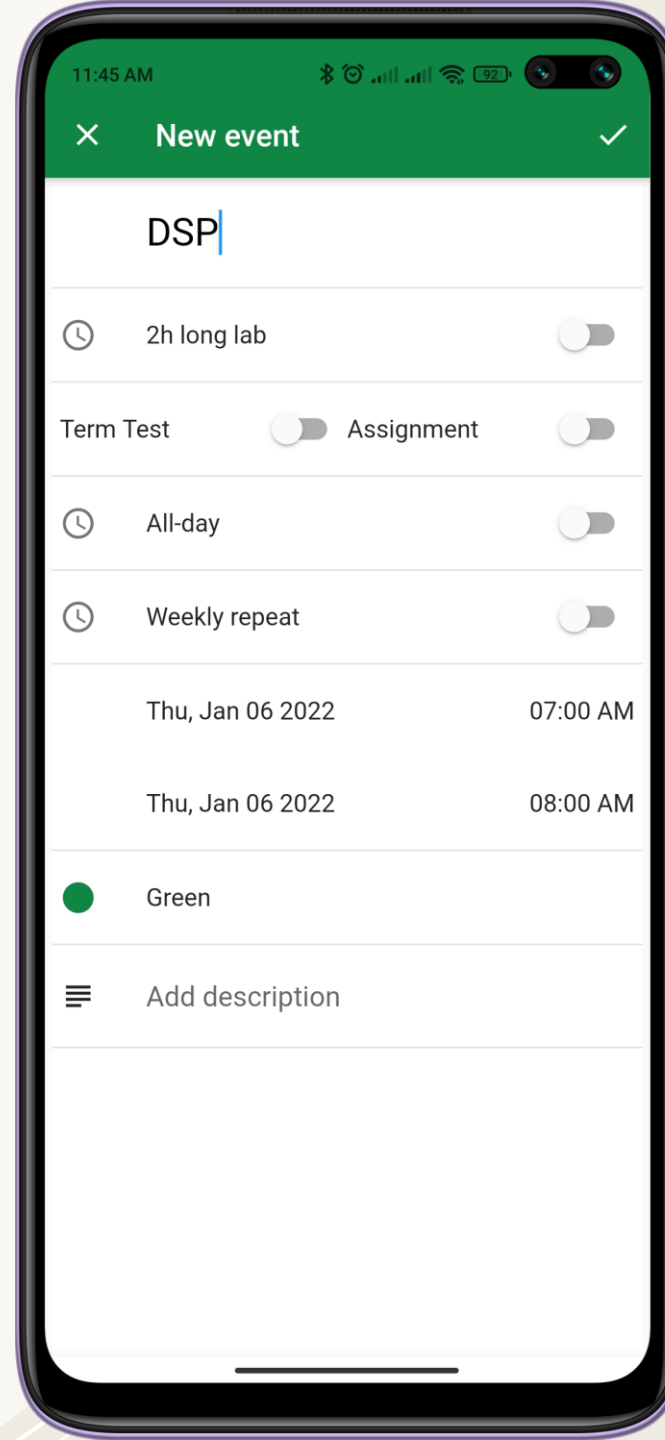

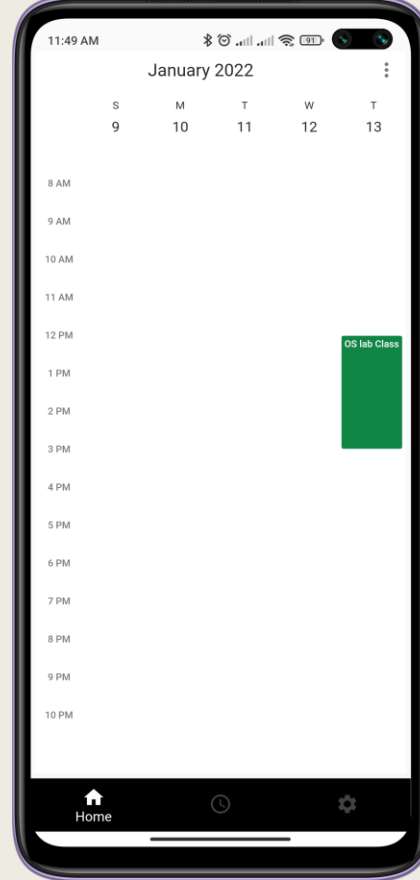

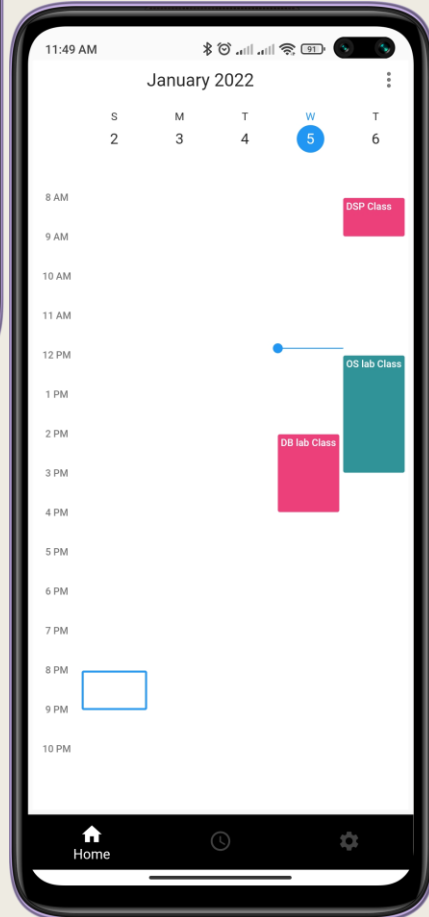

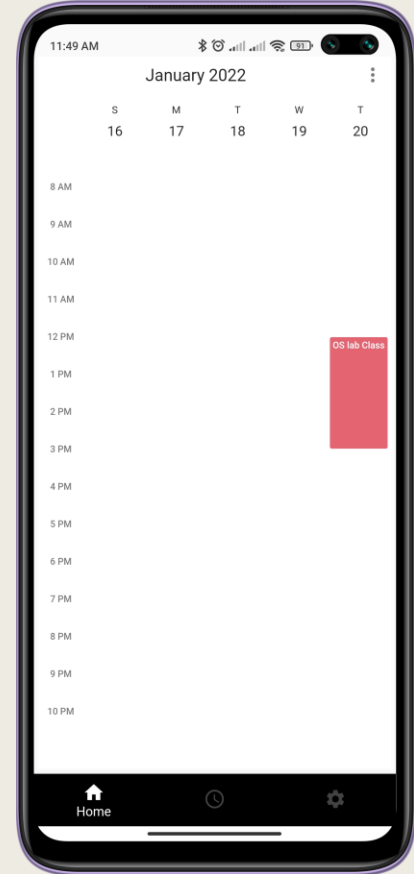

Adding classes

Default duration of the lab classes is 3 hour. However by switching 2h long lab button, duration can be modified to 2 hour.
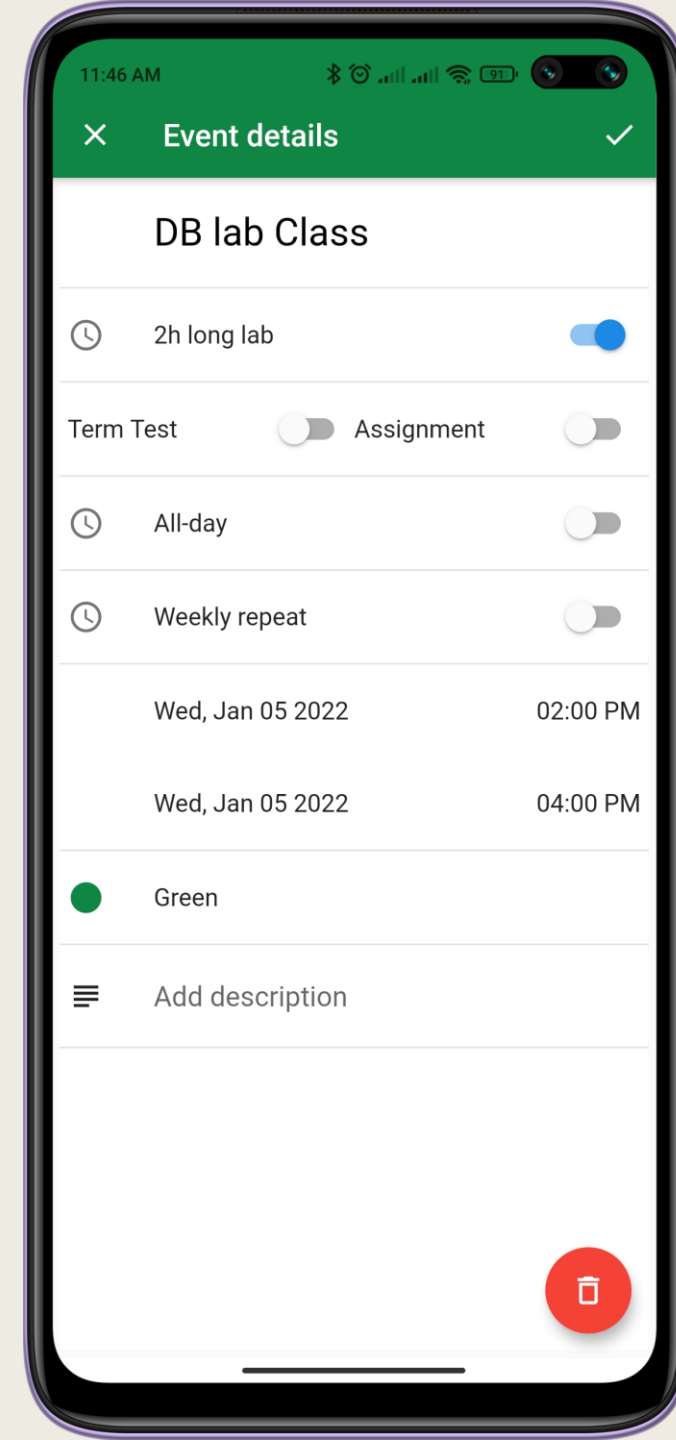

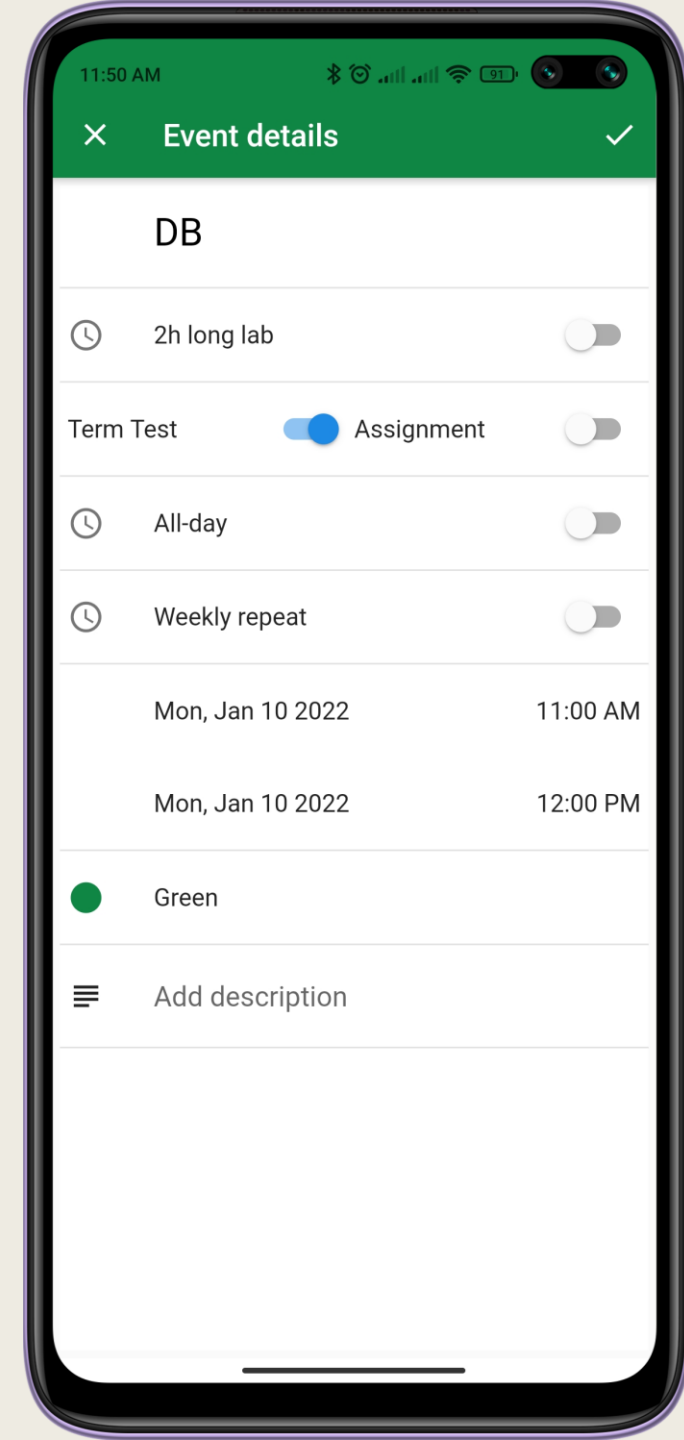

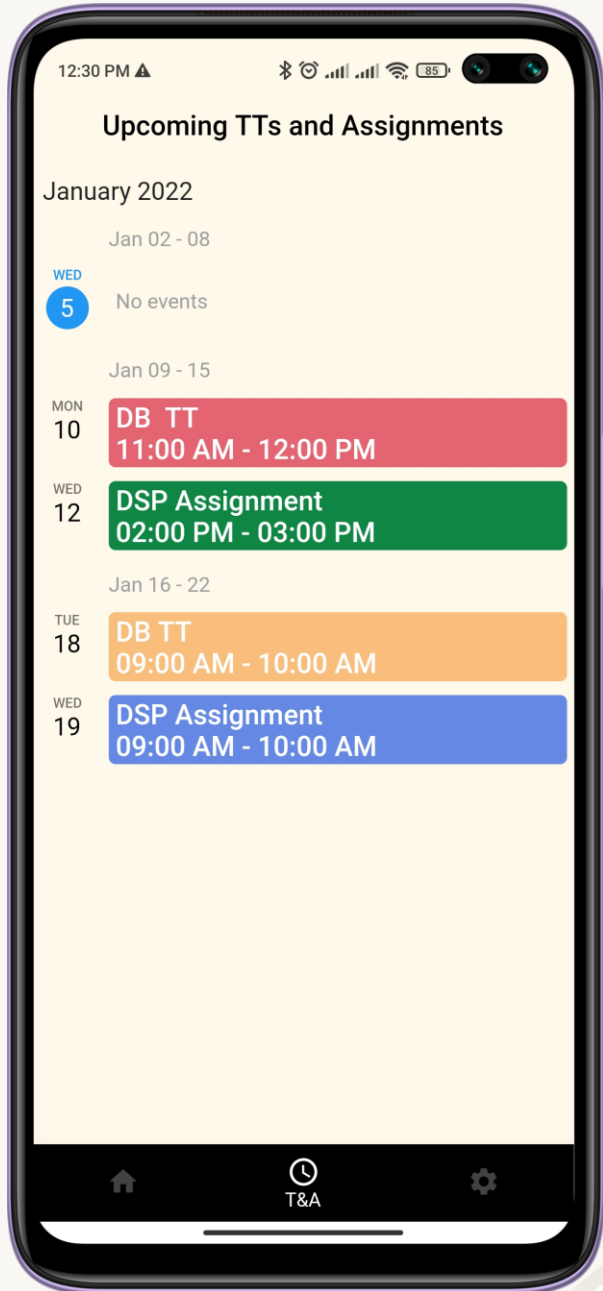

Recurring classes

If you switch weekly repeat to true, App will schedule the specific class for upcoming weeks.

Adding term tests and assignments

If you switch All-Day to true, it will schedule the event for the whole day.

Upcoming term tests and assignments

shows all the upcoming term tests and assignments.

For general Students

Only CR will be eligible to add, delete or update events. For example, if the CR presses on the OS lab Class, He will be redirected to the editing page where he can edit or delete this class. But if any other student presses, it will show an alert dialogue with the information.
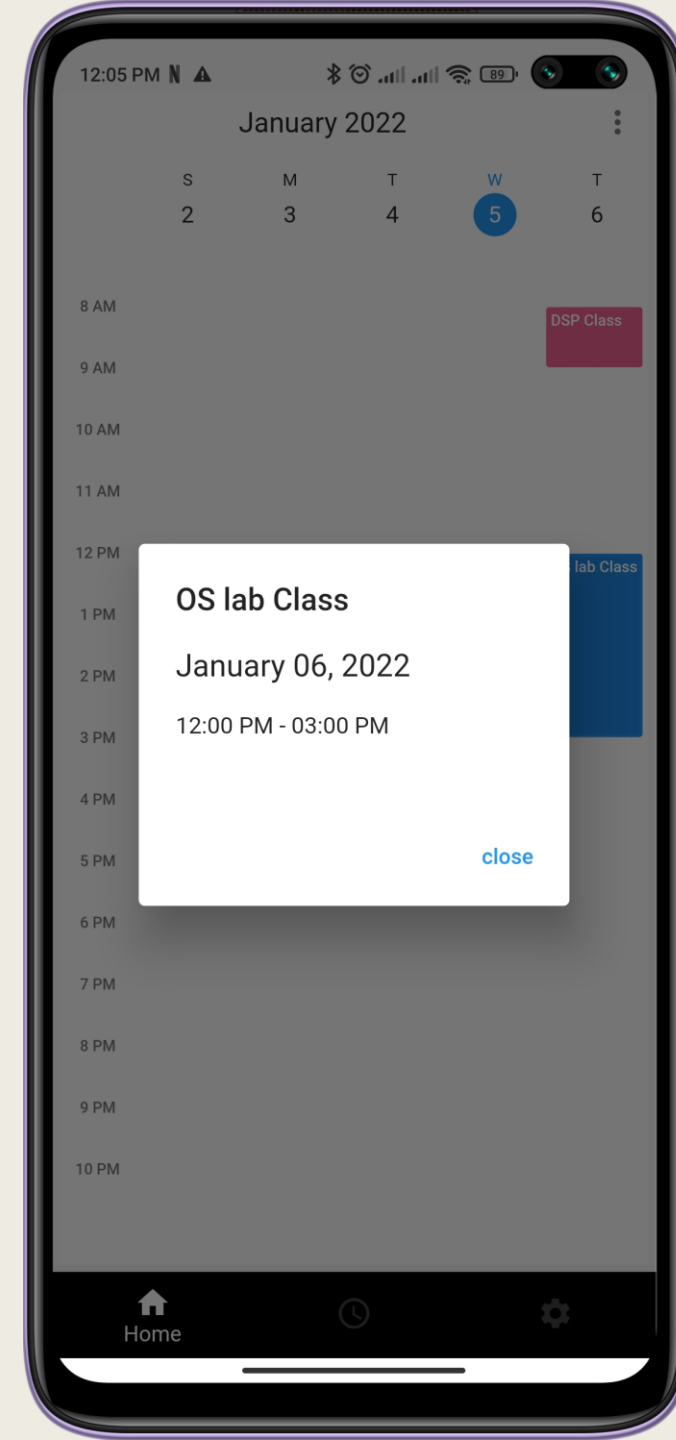

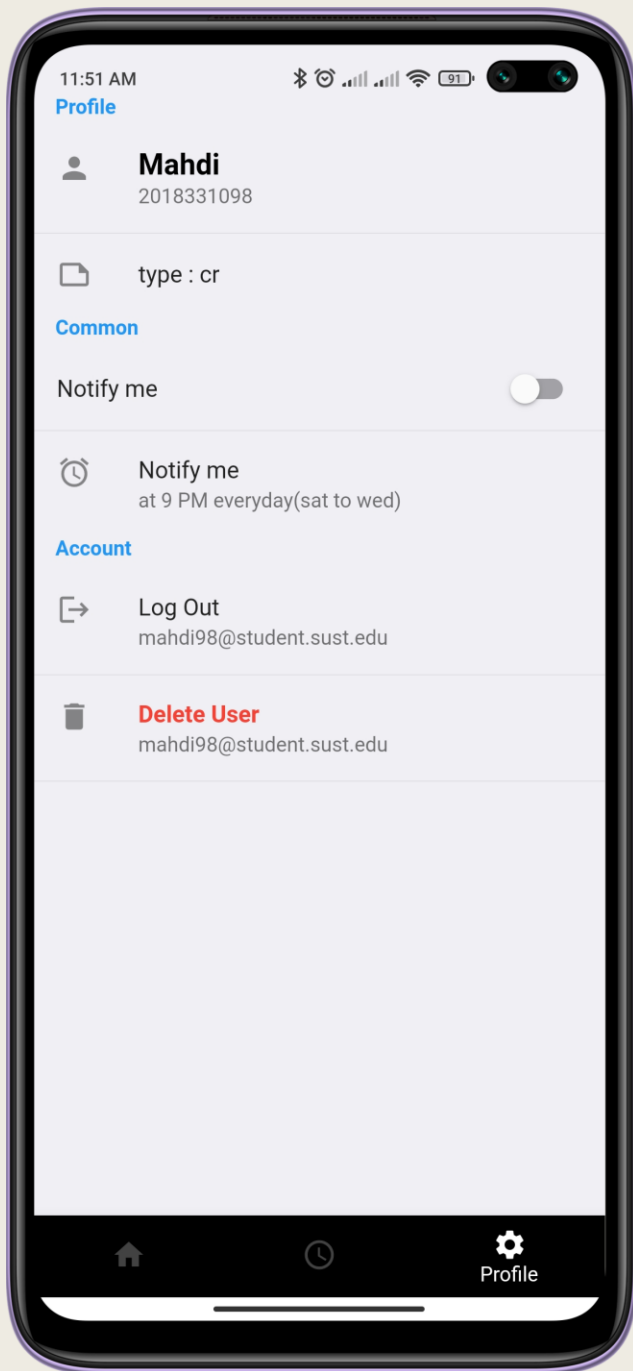

Settings page

Users can log out or delete their accounts from this page. The User cannot edit his profile after the registration.

There is an unimplemented feature in the application. Currently, it can not send any notification to the students when class updates or reminder in case the CR forgets to update the class schedule.
